

Add some Chicken Details

```
CREATE chickens list
PRINT main menu options
GET user input for main menu option
```

```
IF user input is 0:
    EXIT app
```

```
# Main Menu
```

```
ELSE IF user input is 1:
```

```
    PRINT main menu options
    GET user input for main menu option
```

```
    IF user input is 0:
        RETURN to main menu
```

```
    ELSE IF user input is 1:
        PRINT chickens list
```

```
    ELSE IF user input is 2:
```

```
        # CREATE new chicken
        GET user input for chicken name
        APPEND product name to products list
```

```
    ELSE IF user input is 3:
```

```
        # STRETCH GOAL - UPDATE existing chicken
        PRINT chicken names with its index value
        GET user input for chicken index value
        GET user input for new chicken name
        UPDATE chicken name at index in chickens list
```

```
    ELSE IF user input is 4:
```

```
        # STRETCH GOAL - DELETE chicken
        PRINT chickens list
        GET user input for chicken index value
        DELETE chicken at index in chickens list
```
